

**Technical Details Vice M1**

<b>Workability of the piece</b>	
Max. capacity between the clamps	100mm
Accessibility to the piece	360° through revolving column
Max. capacity load of the piece	100Kg
Max. diameter of the circular shaped piece	Ø400mm with thickness until 100mm
<b>Materials</b>	
The vice was built with	Steel/ alluminium machined on machining center
<b>Vice's dimensions</b>	
High	305mm
Width	265mm
Depth	270mm
<b>Vice's weight</b>	37Kg
<b>Fixing to the work table</b>	N. 4 TCEI Screws M12 <sup>1</sup> Classe 8.8 EN ISO 4762 UNI 5931 N. 4 Washers Ø12,5 Classe A2 UNI 6592 N. 4 Hexagonal nuts M12 Classe 8 UNI 5588
