

Technical Details Vice M21

Workability of the piece	
Max. capacity between the clamps	195mm
Accessibility to the piece	360° through revolving column
Max. capacity load of the piece	600Kg
Max. diameter of the circular shaped piece	Ø700mm with thickness until 200mm
Materials	
The vice was built with	Steel/alluminium machined on machining center
Dimensions of the vice	
High	320mm
Width	420mm
Depth	420mm
Weight	
Fixing to the work table	N. 4 TCEI Screws M12 ¹ Classe 8.8 EN ISO 4762 UNI 5931 N. 4 Washers Ø12,5 Classe A2 UNI 6592 N. 4 Hexagonal nuts M12 Classe 8 UNI 5588
