

Technical Details Vice M11
Rotobascula Vice for assembly

Workability of the piece	
Max. capacity between the clamps	100mm
Accessibility to the piece	360° through revolving column
Max. capacity load of the piece	100Kg
Materials	
The vice was built with	Steel/ alluminium machined on machining center
Vice's dimensions	
High	305mm
Width	265mm
Depth	270mm
Vice's weight	37Kg
Fixing to the work table	N. 4 TCEI Screws M12 ¹ Classe 8.8 EN ISO 4762 UNI 5931 N. 4 Washers Ø12,5 Classe A2 UNI 6592 N. 4 Hexagonal nuts M12 Classe 8 UNI 5588
